DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-54 drawn to a construction panel, method of using prefabricated construction panels, a panelized construction system, a method of installing a panelized construction system, classified in class 52, subclass 782.1 and 745.16.
- II. Claims 55-61, drawn to a method of constructing a commercial or industrial building module, classified in class 52, subclass 745.19.

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case a construction panel may be used to make a boat or tank rather than a commercial or industrial building.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steve M Varner whose telephone number is 703 308-1894. The examiner can normally be reached on M-F 7:30-4:30.
